Rescued

Foster!!!

A4175191 What a precious boy...he is shy in the shelter cause he is so scared ☹ but when you give him some attention he will come out of his hiding box and want to be petted...We think he will be sweet outside the shelter and once he puts on some weight, he should be one of those big boy cats that people like. He needs a loving, caring person to treat him like the perfect boy that he is.

A4175192 Gorgeous, golden tabby with deep green eyes and a big voice. There is something so fantastic about an opinionated tabby! And this gal has some talking to do...about everything. She is so very adorable and would love to have a sunny spot, a warm bed and a loving home all her own.

<p>Augora</p> <p>Still at Shelter, need Rescue</p>		<p>A4175274 - REX WHITE, 2 YRS: neutered male (Intake photo and more recent photo!):</p> <p>"Simon" is a confident boy who was in the "habicat" social room at Agoura. He was getting along fine with the other kitties there and having a good time moving around and stretching out. He is not a "lap" cat, he is a "let's play" cat. I think he would probably love to have some toys, (there weren't any in the room that I saw), and would enjoy interactive toys with a human as well, like a feather on a stick or a laser light. Oh, btw, this is a big white, blue eyed cat. Did not seem very "Rex" like to me. Coat is flat and smooth. I think he was just thin when he came in directly from the raid that he just looked like a Rex!!</p>
